

Project Rang drives a 100% circular economy by upcycling banana pseudostem waste into textiles and decor 3x stronger than cotton. We ensure total resource efficiency by repurposing extraction pulp into eco-friendly packaging for all our products. By intercepting 30M tons of Indian biomass via a chemical-free process, we prevent field-burning and empower farmers, proving the industrial value of the entire plant.

OUR ASSESSMENT

- Rural women have skills but lack access to high-end, modern global markets.
- Conscious consumers are stuck between overpriced luxury and low-quality mass production, with no affordable ethical alternative.
- Traditional cotton is water-intensive and the industry needs a sustainable alternative.

SOLUTION

Eliminating middlemen through a Direct-to-Consumer (D2C) model, ensuring that 60-70% of the profit margin goes directly back to the women artisans.

Transforming homemakers into entrepreneurs by upskilling them in design and financial literacy, turning "latent talent" into a steady income stream.

Bridging the market gap by offering eco-friendly, hand-painted products at competitive prices, making ethical fashion accessible to everyone.

BUSINESS MODEL

- Acquiring Raw banana fibers from hvesters near by
- use local small industrial partnerships to make fabric
- Partnering with ngos to produce handmade bedsheets and totes
- providing customizibility to consumers giving them total design control in both b2b and d2c markets

KEY USPS

- Paint-to-order, low waste
- Outsourced sustainable banana-fibre fabrics
- Fair & direct payments to women
- Story tag with every product
- Low-risk, fast market entry
- Banana pulp will be used to make biodegradable packaging

Stronger than cotton

Requires less water

Handmade and hand painted

PROJECT RANG'S IMPACT

200%	100%	0	100%
income growth	women get paid directly	middlemen involved	skill certification

ROADMAP

- Groundwork & Validation (15 days)
- Training & Model Setup (1 Month)
- Production & Market Entry (2-3 Months)
- Measure, Strengthen & Scale (5 Months)
